Tyler Vano, UX Architect

Address: 12617 Summerwood Dr.
Burleson, TX 76028
Phone: **972-646-1195**
E-Mail: tyler.vano@gmail.com

Overview

I am an experienced UX architect with a background in both programming and traditional graphic design. I have a proven track record of developing beautiful, intuitive user interfaces for a broad range of product types. I am seeking a position at a company that has need for a motivated UI expert with unique vision and ability to connect with managers, graphic designers, and programmers.

Experience

Self-Employed
Independent Contractor, 2001-2003
Developed custom web applications and marketing sites for a variety of clients, including a coupon shopper site, a software development company, a landscaping business, and others.

Cottonwood Creek Baptist Church
Lead Developer, 2003-2005
Designed, architected, and developed an in-house multi-departmental content management system for a church with over 10,000 members. Also handled all in-house marketing and web design.

Lober Systems LLC
Leader Designer, 2005-2006
Designed web, print, and brand pieces for a large variety of clients. Developed booth and all ancillary assets for a New York tradeshow, as well as innovative branding strategies for multiple companies.

Simple Rocket LLC
Founder, 2006-2007
Designed and developed interactive web applications for small-to-medium sized medical companies and software development firms.

Building4 LLC
Co-Founder, 2007-2008
Oversaw all front-end development and UI design for several interactive web applications, including a ticket sales application, a meal ordering system, and others.

Kalkomey Enterprises, Inc.
Senior Developer, 2008-2008
Designed and developed a sophisticated application to handle registration for training classes across multiple states. Oversaw all aspects of product lifecycle.

FireScope, Inc.
Software Engineer, 2008-2010
Developed and implemented innovative UI for a variety of web, mobile, and desktop enterprise software platforms. Oversaw development of the first mobile and tablet CMDB products.

Amazon, Inc.
UI Designer, 2010-Present
Working as an external contractor providing UI concepts and consulting for web and mobile projects. Developed several innovative UI solutions for complex workflows.
